Opportunity for Investment										
<p>In 2001-2005, almost of equipment industry have not export oriented</p> <p>Export and import ratio for food and beverage, rubber and plastics manufacture less than 15 percent. Even though export and import ratio of tobacco industry only 5.5 percent. It's smallest if compared with industry else such as rubber and plastics industry.</p> <p>There are many factors that influence it, such as regulation, infrastucture and economic recovery is very slowly or L shaped.</p>
